

## GGF7 Grid Checkpoint Recovery Working Group Session Summary

**Details:** *Consensus achieved on GridCPR Architecture direction; GWD-I document started and to be completed in time for publication before GGF8; Reviewed Milestones; Discussed btwn-GGF mtgs*

**Chairs:** *Derek Simmel <dsimmel@psc.edu>  
Thilo Kielmann <kielmann@cs.vu.nl>*

**Website:** *<http://gridcpr.psc.edu/GGF> << linked from GGF website*

**Mail List:** *[gridcpr-wg@gridforum.org](mailto:gridcpr-wg@gridforum.org) << moved to GGF server*

**Session:** *18 participants at session, several of whom have attended previous GGF GridCPR sessions.*

**Plans:**

- (1) Complete consensus diagram of GridCPR Services & API Architecture (Identify and describe core components; Interfaces and messaging within and to/from core; Clearly draw scope boundaries of GridCPR-WG)*
- (2) Complete GWD-I "An Architecture for Grid Checkpoint Recovery Service and a GridCPR API" document draft within gridcpr-wg list, conference calls*
- (3) Reconcile architecture with other existing GGF research/working groups' services & specifications.*
- (4) Publish GWD-I GridCPR001 document in time for GGF8*
